

# California OES Weather Threat Briefing

Wednesday, April 6, 2022  
9:00 AM PDT

**Day 1 (Wednesday):** Very warm temperatures will build over much of the state today, including for coastal areas. Gusty conditions across the southern California mountains and foothills will also bring elevated fire weather conditions through the evening hours, while critical fire weather conditions develop along the Lower Colorado River Valley due to strong winds and dry conditions.

Severe Impacts

# **WEATHER KEY POINTS**

**04/06/22 - 04/12/22**

## **Wednesday - Friday**

- Dry weather and unseasonably warm temperatures will build across much of the state through Friday, with the hottest readings expected Thursday and Friday
  - Record-setting high temperatures are likely as daytime readings warm well into the 80s and 90s, even for many coastal locations
  - Low to moderate heat impacts are expected
- Gusty offshore winds of 30 to locally 50 mph will continue across the southern California mountains through Friday, bringing locally elevated fire weather conditions
- A period of critical fire weather conditions is also forecast across the Lower Colorado River Valley Wednesday as northerly winds gust up to 50 mph

## **Saturday - Tuesday**

- Temperatures will see a gradual cooling trend for the weekend and into early next week, with some light precipitation possible at times for much of the state late Sunday through Tuesday. Gusty conditions may also redevelop for portions of the state during this time.

# PRECIPITATION FORECAST

04/06/22 - 04/08/22

**No precipitation is expected through Friday**

**Note:** Forecast precipitation amounts are an average for any particular location. Thunderstorms may produce locally higher rainfall amounts.

**Precipitation (inches)**

# **WEATHER OUTLOOK**

**04/11/22 - 04/19/22**

## **6-10 Day Outlook (April 11 - April 15)**

### **Temperatures**

- Below normal temperatures are favored statewide

### **Precipitation**

- Near normal precipitation is favored for much of the state, with the exception of the Central Valley where below normal precipitation is favored

## **8-14 Day Outlook (April 13 – April 19)**

### **Temperatures**

- Near normal temperatures are favored for much of the state

### **Precipitation**

- Below normal precipitation is favored statewide
